PROFESSIONAL SUMMARY

Front-end developer specializing in React.js, Next.js, and modern JavaScript. Builds responsive, user-friendly web applications using component-based architecture, modern state management, and REST APIs, with attention to performance and practical user experience.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)
Frameworks and libraries: React, Next.js
State management and data fetching: Redux Toolkit, React Query, Context API
Styling: Tailwind CSS, Bootstrap, CSS Modules
Tools: Git, GitHub, Visual Studio Code
Concepts: Responsive design, component-based architecture, REST APIs

PROJECTS

Bazarlo | E-commerce Web Application | React

Live: https://bazarlo.vercel.app | GitHub: https://github.com/mostgiu/E-commerce
- Built a responsive shopping experience with product browsing, cart management, and checkout. Implemented Redux Toolkit and React Query for state and data management, REST API integration, protected routes, form validation, loading states, and error handling.

Lama Store | E-commerce Storefront | Next.js

Live: https://lamastore-mysjw50jg-mostafas-projects-e0563a56.vercel.app | GitHub: https://github.com/mostgiu/Lama-store
- Created a storefront for browsing products, viewing product details, and managing a shopping cart.

Lamamia | Full-Stack Web Application | Next.js

Live: https://my-app-murex-iota.vercel.app | GitHub: https://github.com/mostgiu/Lama
- Built an application with MongoDB-backed authentication, a blog, and a dashboard for creating, managing, and deleting posts.

Educity | Education Website

Live: https://educity-ruddy.vercel.app | GitHub: https://github.com/mostgiu/Educity
- Developed a responsive website presenting courses and campus information through a clean, user-friendly interface.

Pizza Primavera | Food Ordering Website | Next.js

Live: https://pizza-primavera.vercel.app | GitHub: https://github.com/mostgiu/pizza-primavera
- Built an ordering experience with menu browsing, product details, a shopping cart, and order management.

EXPERIENCE

Front-End Developer | Self-Directed Projects | 2024-Present

Design, build, and deploy front-end projects with React and Next.js, focusing on responsive interfaces, reusable components, and practical user flows.

EDUCATION

Route Academy | Front-End Development Diploma
Cairo Higher Institute | Bachelor's Degree in Business Management
